

ASSEMBLY INSTRUCTIONS

TV, TVX, TVXL

BOLTZ
STEEL FURNITURE

NOTE: Hand tighten all nuts and bolts until unit is complete. Tightening with a wrench as the unit is built may cause complications. Take caution when using metal tools to avoid damage to the painted surfaces of your unit.

- UNWRAP ALL COMPONENTS.** Verify that you have all parts required for assembly. Check the parts reference chart below.
- PRE ASSEMBLY.** If you purchased casters for your TV stand, install them first on the base using the bolts and nuts included with your caster package. You will find five holes on the flanges of the base for casters. Rubber caps may be used in lieu of casters for floor protection.
- ATTACH SIDE PANELS TO BASE.** To attach a side panel to the base, insert a **SHORT** bolt through the bottom of the base and fasten using a cap nut on the top of the hole. See Figure A.
- BACK PANEL/CORD COLLECTOR ASSEMBLY.** To assemble the back panel and cord collector to the base, insert a long bolt through the bottom of the hole and fasten using a cap nut on top. Note the cord collector piece is optional; if used, it should be the top layer. See Figure B. (If you purchased a one-shelf unit, proceed to Step 6.)
- ADD A SHELF.** For two-shelf units, insert a long bolt through the bottom of the hole on the lower shelf side panel, through the shelf hole and into the hole of the upper shelf side panel. See Figure C. Refer to Step 4 for back panel assembly.
- ADD THE TOP SHELF.** Insert a short bolt through the bottom of the hole in the side panel, through the hole in the top shelf and fasten with a cap nut. See figure D. Refer to Step 4 for back panel assembly.
- TVXL TOP SHELF.** If you purchased a TVXL, your top shelf includes threaded studs which will fit into the side and back panels. Fasten with a cap nut. Note: TVXL top shelf will not support a cord collector.
- VERTICAL SUPPORTS (OPTIONAL).** The use of vertical supports is optional depending on the weight distribution on your TV stand. Attach a rubber cap to each end of the vertical support. Insert the support between the shelves using a friction fit. Use caution when installing the vertical supports.

To upgrade your stand by adding a shelf or casters please visit www.boltz.com. If you have any questions, please call us toll-free at 877.804.7650 (M-F 8:30am-5:30pm PT) or email us at customerservice@boltz.com.

Figure A: Add a shelf to the base.

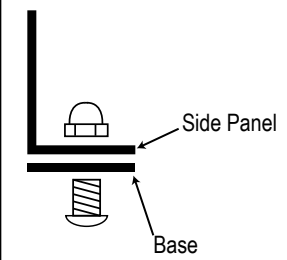

Figure B: Add back panel and cord collector

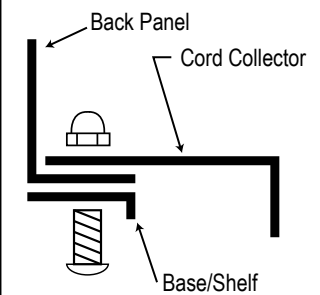

Figure C: Add a shelf

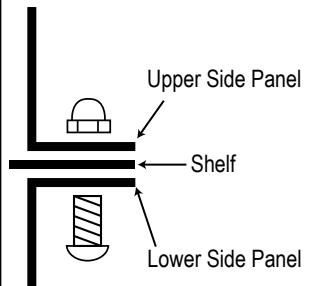

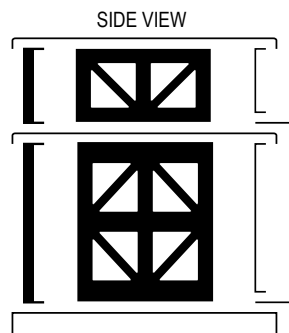

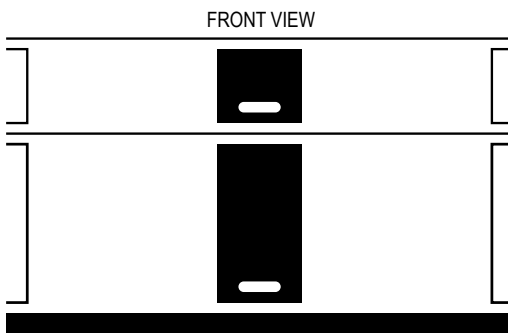

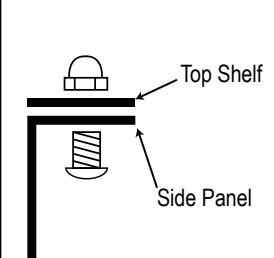

Figure D: Add a top shelf.
